

Aviat Networks Showcases LTE-Proven Products and Solutions at Mobile World Congress 2012

SANTA CLARA, Calif., Feb. 22, 2012 /PRNewswire/ -- Aviat Networks, Inc. (NASDAQ: AVNW), a leading expert in microwave networking solutions, today announced that it will be showcasing its latest LTE-proven products and solutions being deployed today for the next generation of mobile broadband services at the 2012 Mobile World Congress Conference, February 27 — March 1, in Barcelona, Spain.

Showcase Overview

Aviat Networks' LTE-proven packet backhaul networks are delivering superior Ethernet and microwave RF performance today—with non-disruptive migration options and mission-critical reliability. Aviat Networks' proven products are designed to help mobile service providers address the cost, capacity and complexity involved with the evolution of their network infrastructure. Products to be showcased at Mobile World Congress 2012 include:

- Aviat Eclipse INU/INUe—the industry proven leading solution in LTE backhaul
- Aviat Eclipse IDU GE3—the most compact and powerful microwave indoor unit on the market
- Aviat ODU 600—the industry's first outdoor unit with Flexible Power Mode
- Aviat WTM 3000 family of products—the latest additions to our all outdoor microwave networking portfolio

Join Us

Aviat Networks' will also host a cocktail and tapas event on Monday, Tuesday and Wednesday from 5:00 to 7:00 p.m. in courtyard pavilion #CY08. Customers and other friends of the company are invited. Please contact your representative if interested in attending.
