Aviat Networks Enhances Managed Services Capabilities

Expands Services Portfolio to include IP/MPLS Services

SANTA CLARA, Calif., March 3, 2016 /PRNewswire/ -- Aviat Networks, Inc. (NASDAQ: AVNW), the leading expert in microwave networking solutions, today announced expansion of its global services portfolio to provide IP/MPLS services and training to our customer base worldwide. Combined with its leading portfolio of microwave-related services, Aviat's IP/MPLS services capabilities enable customers to have a single source supplier for all microwave and IP/MPLS design, deployment and management related activities.

Aviat Networks can provide turnkey IP/MPLS network lifecycle services—from the core to the edge—leveraging best-in-class tools for:

- Audit and assessment services for transitioning to IP/MPLS
- Design and planning of IP/MPLS networks
- Managed services for IP/MPLS including network performance monitoring
- Network optimization solutions for IP/MPLS
- Training and certification program focused around IP/MPLS

"Aviat Networks has a global presence and worldwide experience to deliver IP/MPLS services for customers anywhere," says Patrick Davis, vice president, global services, Aviat Networks. "Services are becoming an increasing part of our solution offering, and we're seeing growing demand for services solutions from our mobile operator and private market customers globally. Adding IP/MPLS capabilities to our microwave expertise significantly enhances our services value proposition."

About Aviat Networks

Aviat Networks, Inc. (NASDAQ: AVNW) is a leading global provider of microwave networking solutions transforming communications networks to handle the exploding growth of IP-centric, multi-Gigabit data services. With more than one million systems sold in over 140 countries, Aviat Networks provides LTE-proven microwave networking solutions to mobile operators, including some of the largest and most advanced 4G/LTE networks in the world. Public safety, utility, government and defense organizations trust Aviat Networks' solutions for their mission-critical applications where reliability is paramount. In conjunction with its networking solutions, Aviat Networks provides a comprehensive suite of localized professional and support services enabling customers to effectively and seamlessly migrate to next-generation Carrier Ethernet/IP networks. For more than 50 years, customers have relied on Aviat Networks' high performance and scalable solutions to help them maximize their investments and solve their most challenging network problems. Headquartered in Santa Clara, California, Aviat Networks operates in more than 100 countries around the world.
