

Ceragon Networks Shareholder Aviat Networks Calls for Extraordinary General Meeting of Ceragon Shareholders and Nominates Five Highly Qualified, Independent Candidates for Election to the Ceragon Board of Directors

Calls for boardroom changes to address destruction of value at Ceragon and refusal to consider Aviat's premium acquisition proposal

Urges Ceragon shareholders to vote for directors who will protect shareholder interests and consider value creation opportunities

AUSTIN, Texas – June 27, 2022 – Aviat Networks, Inc. (NASDAQ: AVNW) (“Aviat”), the leading expert in wireless transport solutions, today announced that it has requested an extraordinary general meeting of Ceragon Networks Ltd. (NASDAQ: CRNT) (“Ceragon”) shareholders for the purposes of increasing the size of the Ceragon Board of Directors to nine, removing three current directors, and electing five highly qualified and independent new directors to better represent the interests of all Ceragon shareholders. As of June 24, 2022, Aviat holds more than 5% of Ceragon’s outstanding shares, making it Ceragon’s third largest shareholder.

Aviat believes Ceragon’s current Board has overseen destruction of shareholder value and overlooked opportunities to create greater value. In particular, the Ceragon Board has neglected its responsibility to shareholders by refusing to engage constructively with Aviat, which has sought for months to negotiate the terms of a transaction that would deliver immediate and certain value greater than the continued execution of Ceragon’s standalone strategy. As announced separately today, Aviat has submitted a highly attractive nonbinding proposal to acquire all the outstanding shares of Ceragon for \$2.80 per share in cash. Aviat is also open to offering a portion of the consideration in Aviat stock should Ceragon wish to provide the opportunity for its shareholders to share in the upside potential of the combined company.

Aviat seeks to replace three Ceragon directors who lack sufficient independence to make decisions in the best interests of all Ceragon shareholders. Each of the three has close ties to the company and to other companies founded, owned or formerly led by Ceragon Chairman Zohar Zisapel.

Ira Palti served as Ceragon CEO from 2005 to 2021, during which time he oversaw the destruction of shareholder value, delivering total shareholder return of -21%, while Ceragon fell behind competitors in the development and delivery of 4G chips;

Yael Langer is General Counsel at RAD Data Communications, founded by Zisapel and led by his brother, Yehuda Zisapel, and has served on the Ceragon Board since 2000, during which time Ceragon’s stock has fallen approximately 80%; and

David Ripstein spent nine years as CEO of RADCOM, another company founded by Zisapel and a part of the RAD Group, of which Ceragon is also a member.

“Although we are disappointed that Ceragon’s Board has rejected our attempts to negotiate a transaction that would deliver compelling value to shareholders, we are pleased to give Ceragon shareholders the opportunity to vote for a Board that will consider strategic opportunities to unlock value and, most importantly, be accountable to shareholders,” said Aviat President and CEO Peter Smith. “We firmly believe shareholders will recognize that Ceragon’s leadership has demonstrated an inability to execute an effective business plan that drives growth and protects shareholders’ investments. We urge shareholders to support our highly qualified Board candidates to drive much-needed change.”

At the extraordinary general meeting, Ceragon shareholders will have the opportunity to vote for Aviat’s five nominees, all of whom are seasoned leaders in their respective fields with extensive experience

leading and advising companies across sectors. Aviat urges shareholders to take advantage of this opportunity to select a meaningfully refreshed and qualified Board that can address the company's dire financial underperformance, strategic deficiencies and haphazard management, substandard governance, and reverse Ceragon's continued value destruction.
