The information contained in this Current Report on Form 8-K that is furnished under Item 2.02 and 7.01, including the accompanying Exhibit 99.1, shall not be incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, whether made before or after the date hereof, except as shall be expressly set forth by specific reference in such a filing.

On February 1, 2012, Aviat Networks, Inc. ("Aviat Networks") issued a press release announcing its results of operations and financial condition as of and for its second quarter of fiscal year 2012, which ended December 30, 2011 and guidance regarding expected revenue for its third quarter of fiscal 2012. The full text of the press release and related financial tables is furnished herewith as Exhibit 99.1 and is incorporated herein by reference.

Use of Non-GAAP Measures and Comparative Financial Information

The press release and related financial tables include a discussion of non-GAAP financial measures, including non-GAAP net income or loss and net income or loss (or earnings or loss) per basic and diluted share for the second quarter of fiscal 2012. A "non-GAAP financial measure" is generally defined as a numerical measure of a company's historical or future performance that excludes or includes amounts, or is subject to adjustments, so as to be different from the most directly comparable measure calculated and presented in accordance with generally accepted accounting principles ("GAAP"). Each of such non-GAAP amounts was determined by excluding certain items including costs of product sales and services, amortization of purchased technology, research and development expenses, selling and administrative expenses, amortization of intangible assets, goodwill impairment charges, restructuring charges and provision for income taxes. Aviat Networks has included in its press release a reconciliation of non-GAAP financial measures disclosed in the press release to the most directly comparable GAAP financial measures.

Aviat Networks reports information in accordance with U.S. GAAP. Management of Aviat Networks monitors gross margin, operating income or loss, net income or loss, and net income or loss per share on a non-GAAP basis for planning and forecasting results in future periods, and may use these measures for some management compensation purposes. As such, historical non-GAAP combined information has been included in this press release for comparative purposes. As a result, management is presenting these non-GAAP measures in addition to results reported in accordance with GAAP to better communicate underlying operational and financial performance in each period. Management believes these non-GAAP measures provide information that is useful to investors in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionate positive or negative impact on results in any given period. Management also believes that these non-GAAP measures enhance the ability of an investor to analyze trends in Aviat Networks' business and to better understand our performance.

Aviat Networks management does not, nor does it suggest that investors should consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. Aviat Networks presents such non-GAAP financial measures in reporting its financial results to provide investors with an additional tool to evaluate the Company's financial performance.

RECONCILIATION OF NON-GAAP FINANCIAL MEASURES AND REGULATION G DISCLOSURE

To supplement our consolidated financial statements presented in accordance with accounting principles generally accepted in the United States (“GAAP”), we provide additional measures of gross margin, research and development expenses, selling and administrative expenses, operating income or loss, other income or loss, income tax provision or benefit, income or loss from continuing operations, and basic and diluted income or loss per share from continuing operations, adjusted to exclude certain costs, charges, gains and losses. Aviat Networks, Inc. (“we” or “our”) believes that these non-GAAP financial measures, when considered together with the GAAP financial measures provide information that is useful to investors in understanding period-over-period operating results separate and apart from items that may, or could, have a disproportionate positive or negative impact on results in any particular period. We also believe these non-GAAP measures enhance the ability of investors to analyze trends in our business and to understand our performance. In addition, we may utilize non-GAAP financial measures as a guide in our forecasting, budgeting and long-term planning process and to measure operating performance for some management compensation purposes. Any analysis of non-GAAP financial measures should be used only in conjunction with results presented in accordance with GAAP. A reconciliation of these non-GAAP financial measures with the most directly comparable financial measures calculated in accordance with GAAP follows.

Beginning in the third quarter of fiscal 2011, the results of the WiMAX business are presented as a discontinued operation in our consolidated financial statements. Prior year period results have been reclassified to conform to current period presentation.
- (2) The adjustments above reconcile our GAAP financial results to the non-GAAP financial measures used by us. Our non-GAAP financial measures exclude share-based compensation, write-off of deferred inventory and excess and obsolete inventory, amortization of purchased technology, amortization of intangible assets, goodwill impairment charges, restructuring charges, loss on sale of NetBoss assets, transactional tax assessments and adjustment to reflect zero percent pro forma tax rate. We believe that the presentation of these non-GAAP items provides meaningful supplemental information to investors, when viewed in conjunction with, and not in lieu of, our GAAP results. However, the non-GAAP financial measures have not been prepared under a comprehensive set of accounting rules or principles. Non-GAAP information should not be considered in isolation from, or as a substitute for, information prepared in accordance with GAAP. Moreover, there are material limitations associated with the use of non-GAAP financial measures.
