

## **New Zealand's TeamTalk Selects Eclipse Radios from Harris Stratex Networks as Part of National Network Expansion**

### **Harris Stratex to also provide service, support to nation's largest radio communications supplier**

**RESEARCH TRIANGLE PARK, North Carolina, May 6, 2008** -- Harris Stratex Networks, Inc. (NASDAQ: HSTX), the leading independent supplier of turnkey wireless transmission solutions, will provide its Eclipse™ radios to TeamTalk, New Zealand's largest mobile radio network provider.

TeamTalk will deploy the Eclipse radios as part of its network expansion throughout New Zealand. Harris Stratex will also provide a complete range of consulting services and support to TeamTalk. TeamTalk is a majority shareholder of fiber-optic carrier CityLink, and wireless broadband operator Araneo—the latter will utilize TeamTalk's expanded transmission network for its own linking needs.

The radios will provide access link capabilities, using Eclipse's compact nodal configuration to enable operators to aggregate and concentrate traffic with no need for additional equipment. They provide significant reductions in the complexity of network deployments, such as those used by TeamTalk.

"Eclipse radios are perfect for our continued network expansion. We see growing customer demand for our value-add data products such as XLERATE™ and we expect the demands on the network to increase. Eclipse allows us to expand the network in line with this demand." said David Ware, founder and CEO of TeamTalk. "Harris Stratex is providing us with the ideal products, technology and support we require to deliver the kinds of innovative mobile and data services customers expect from TeamTalk."

"TeamTalk has led the development of advanced mobile radio network products throughout New Zealand and is recognised as one of the more innovative operators worldwide," said Raj Kumar, vice president, Asia Pacific Sales and Services, Harris Stratex Networks. "TeamTalk delivers dependable and valuable services to their customers and we recognize the importance of being a reliable and responsive partner to them. We look forward to continuing our close and mutually beneficial relationship with them as they continue their expansion program nationwide."

#### **About TeamTalk**

TeamTalk Limited started its mobile radio business in 1994 and is the largest provider of nation-wide, linked mobile radio communication services in New Zealand. TeamTalk Limited has expertise and competencies in network design, frequency planning, project and contract management, customer service and help desk processes and procedures, customer billing, account management, customer engineering resources and countrywide medium altitude sites.
